TEAM FACILITIES BULLETIN

After a challenging year for all teams participating in this event, as well as for the national federations and the Organizing Committee, in which many faced and still face health and economic difficulties in their respective countries and with their esteemed family members, we wish to hold an event in the best security and infrastructure conditions to the participants. This Organizing Committee, together and with a huge support from the World Rowing, spared no effort throughout this period, always seeking the best solutions for the most diverse and complex encountered adversity, not only in the city host of the event, but also in the participating countries. This event will strictly follow the Covid19 Plan, developed by specialists and following international and local standards. For this, all participants must follow the safety protocol and use the official accommodation of the event. This measure aims to keep all participants in a safe routine, supported by the organizing committee.

COVID19 PLAN

SAFETY PROTOCOL FOR ALL PARTICIPANTS

The Organizing Committee and World Rowing worked hard to develop a security plan to prevent contagion by Covid19 during this event.

The complete Covid19 Plan must be known by all participants and is available at

<http://www.remobrasil.com/rio2021>.

The organization of accommodation and transportation follows the rules established in this plan, and must be complied with by all participants.

In order for us to hold a safe, organized event and within the protocols in force, we request that the person in charge of each team read this entire bulletin and anticipate contact with the organizing committee for questions and reservations.

We wish you all a safe preparation for this competition.
